

Logistics Manager

Title: Logistics Mgr (managing the relationship with a 3PL)
Industry: Manufacturing - supplier to retailers
Location: New England
Salary: Competitive!
Bonus: Strong Incentive Opportunity

Our client is an internationally known manufacturing business. They are known for producing a product that is [highly engineered](#). In addition, they enjoy instant name recognition and a reputation for outstanding quality.

This role will manage the relationship with their 3PL provider who operates a direct-to-consumer distribution center. This is a remarkable opportunity to join a long-standing, internationally known organization.

Prospective candidates must have qualification including:

- Experience managing distribution 3PL relationships for a manufacturing or retail organization, or experience leading 3PL distribution operations.
- A career track record of stability and rational progression.
- Outstanding communication skills, both oral and written. Must be able to lead business meetings and make presentations.
- Demonstrated knowledge of distribution and transportation operations.
- A BS Degree is strongly preferred.

Again, this is a remarkable opportunity.
