

Supplier engineer for MA healthcare company

Greetings - I am a recruiter specializing in locating and placing hard-to-find supply chain, operations and quality assurance candidates. (Check out my LinkedIn profile for more info.)

I am looking for a Supplier/Sourcing Engineer for a MA healthcare company. The Company is a private, employee owned operation which designs, develops and manufactures precision products for diagnostic, drug delivery and general medical applications. It has healthcare facilities in the United States, Latin America, Europe, China and S.E. Asia. The company had sales in excess of \$1B in 2009 and had its third highest earnings level ever - even during this year's recession.

I am looking for candidates with some of the following:

- experience in healthcare procurement,
- exp qualifying suppliers,
- exp conducting supplier audits, and
- comfortable leading performance improvement activities.

Base salary + bonus + annual profit sharing + stock grants should be in excess of \$100,000.

If you think of anyone who might be interested please let me know or have them call or email me. Thanks for your help and pls - let me know if I can help you in any way!
