

## **Operations Excellence Leader (Job #2664)**

Our client, recognized for their world-class manufacturing, is seeking an **Operations Excellence Leader** as a critical member of the Operations team.

In this role, you will be a driving force, ensuring programs are defined and implemented and providing senior management with recommendations on emerging trends, technologies and strategies in manufacturing.

This is an individual contributor role, requiring an individual who is comfortable:

- Developing and Leading Lean/Six Sigma programs
- Providing leadership in identifying new initiatives
- Providing project management leadership
- Developing training and certification programs

### **Requirements:**

- Bachelor degree in Engineering is mandatory
- A minimum of 5 years experience
- Six Sigma/Lean certification
- Strong, technical understanding of manufacturing processes
- Demonstrated success in creating, selling and implementing manufacturing programs

### **Compensation:**

Commensurate with experience

### **Location:**

Norwood, MA
